## ABOUT US

We are Marina and Karla — friends, colleagues, and a creative duo.

A few years ago, we moved to Zagreb to pursue our studies in fashion design, where we first met. Though different in personality, we complement each other perfectly.

We are united by our passion for drawing and design, which we now share through our creative work.

Each sketch is completed in just a few minutes — while you and your guests continue to enjoy the celebration without interruption.

Guest sketches can be wedding favors — or simply an elegant addition to your evening.

Each guest receives a personalised keepsake from your wedding — a timeless memory they will cherish and proudly display in their home.

The sketches are created using pencil, fine ink pens, and watercolour, on premium 300 gsm A5 paper.

The process is effortless and natural, allowing guests to simply enjoy the moment.

This elegant artistic touch adds a true wow factor to your celebration.

It appeals to all generations and never goes unnoticed.
